PROFESSIONAL EXPERIENCE

CERTIFIED SAP MDG CONSULTANT | MEDEPIA IT CONSULTING *01/2024 – PRESENT*

JUNIOR SAP MDG CONSULTANT | MEDEPIA IT CONSULTING *09/2022 – 01/2024*

- Customized dynamic rule-based workflows using BRF+ by utilizing provided workflow BAdIs and enabling parallel steps in Change Request processing.
- Using authorization concept to authorize users for assigned actions with roles and authorization objects.
- Integrating CDQ into SAP MDG classic mode to utilize BP Lookup, Bank Fraud Case etc..... APIs in MDG real-time.
- Designed complex mail notification scenarios of approval stages, enhancing stakeholder awareness using dynamic logic tied to user roles.
- Built Fiori-compatible OData services for Business Rules utilizing CDS views to create SAPUI5 Fiori Applications.
- Integrated DQM-based Business Rules for real-time data validation in Mass Processing, Consolidation, Data Evaluation, and Change Request processes ensuring master data quality and consistency.
- Enabled field-level derivation, validation and UI behavior control through BRF+ applications.
- Developed RAP framework and consumed CDS views to support analytical reporting and transactional applications.
- Implemented replication scenarios using ALE IDoc and SOAP Web Services to sync master data across 3rd-party systems, aligned with both Hub and Co-deployed architectures.
- Enhancing the OVP interfaces by customizing UIBB's Web Dynpro with custom fields.
- Developed reusable ABAP OOP frameworks to meet Business Rules.
- Extended MDG Data Models with custom attributes and entities for organizational master data requirements.

COMMISSIONING SPECIALIST | BEYCELIK GESTAMP *04/2022 – 05/2022*

- Supported system commissioning by interpreting technical documents and assisting in component selection, contributing to the accurate execution of electrical and mechanical setups.
- Built a centralized master tracking table for component arrivals, enhancing visibility and coordination across commissioning stages.

LOGISTICS ENGINEER | ORAU *02/2022 – 03/2022*

INTERN LOGISTICS ENGINEER | ORAU *03/2021 – 01/2022*

- Monitored and evaluated material stock level metrics, enabling early detection of critical supply issues and improving inventory reliability across production lines.
- Enhanced transportation quality and efficiency for over 200 materials sourced from 15 suppliers by standardizing handling practices for components such as nuts, Loctite, pipes, sheet metals, labels, and plastic parts.
- Enhanced operational flow in pipe cutting by developing structured layouts, material movement strategies, and detailed process maps, reducing handling time and waste.
- Optimized weekly Milk Run transportation using Holt's Method, resulting in a 100 km average reduction in weekly routing distance and contributing to lower fuel and labor costs.
- Developed a VBA-enabled Excel tool to calculate material requirements directly from shipment plans, significantly improving planning accuracy and reducing manual effort.

INTERNSHIP

PLANNING INTERN | WARMHAUS *08/2020 – 09/2020*

- Observed SAP S/4HANA transformation activities and attended planning meetings, gaining early exposure to enterprise systems and documentation practices.

METHOD INTERN | PILOT SEATS *04/2019 – 06/2019*

- Analyzed production workflows through on-site observations and worker feedback to support process improvement efforts.

EDUCATION

ULUDAG UNIVERSITY | INDUSTRIAL ENGINEERING *09/2016 – 07/2021*

- GPA: 3.18/4.00 (Finished 3rd)
- Certificate of honor in June 2019 and June 2020

GRADUATION PROJECT | DATA ANALYST | IBRAS KAUCUK *12/2020 – 06/2021*

- Improved production efficiency by 18% by modeling hidden process relationships using statistical analysis, enhancing planning accuracy through data-driven insights.
- Defined and implemented 5 KPIs by analyzing system bottlenecks, enabling real-time tracking, and supporting structured alignment of operational master data.

SKILLS & INTERESTS

SKILLS

- **SAP Related**: MDG, ABAP, BRF+, DQM, CDS, OData, Replication, Web Service, IDOC, CDQ
- **Other Skills**: SQL, Microsoft Excel VBA, Python, C#, Visual Basic, OOP, Notion, AI

INTERESTS

- Biking, Video Games, Films & Series
